Product description

ARIZANT BAIR Paws Model 875, patient warming device, adjustable temperature range, overheating protection, for connection to a warming mat (not included), second-hand. We recommend the use of convective warming mats from Moeck&Moeck. These are compatible with almost all patient warming systems. Moeck&Moeck also offers special heating mats for veterinary medicine. Please request a quotation directly from Moeck&Moeck: vet@moeckundmoeck.de
